EXPERIENCE

Tock – A Squarespace Company   **Chicago, IL**
Sales Executive   Feb 2024 – Present
- Consistently reached monthly quota of 20 qualified meetings.
- Generated an average of $1396 Booked SaaS Rev. a month

ReactJS Developer   **Chicago, IL**
Ultio Crati Inc.   Jan 2021 – March 2024
- Develop and test React.js & Tailwind.css with Next.js that meets browser requirements, also developing API's & web services with Firebase.
- Develop the backend in a high-quality, scalable, and well-documented way using Node.JS and MongoDB.
- Implement and configure Shopify apps & extensions to enhance site functionality.
- Helped make this online marketplace the top e-store for government employees & the official store for the Enlisted National Guard Association.

Software Developer / Frontend Developer   **Chicago, IL**
The Hub Club   Jan 2020 – Jan 2021
- Developed and implemented a responsive and user-friendly application that constantly pulls data from federal associations (SBA & SBDS) to display awarded federal contracts & small businesses looking to get into federal contracting.
- Utilized Firebase for the backend, incorporating real-time database functionalities to enhance the interactivity of the web application.
- Collaborated with external API providers to integrate and consume data, ensuring up-to-date and relevant information on the website.

PROJECTS

Property Management App – iOS App
Baait.Ai
- Developed an all-in-one property management app called Baait.ai using SwiftUI, Firebase, and React, providing landlords with a comprehensive solution to communicate with residents, collect rent, and manage properties efficiently. Integrated Stripe payment gateway for secure rent collection and implemented user authentication using Firebase.

Used Car Marketplace – iOS App
DrivenAuto
- Designed, developed, and maintained a mobile application built with swiftUI.
- App allowed users to sign up/log in using Firebase authentication, list & see cars others have listed. Working on adding payments through plaid.

Scavenger Hunt Mobile App
Walmart & National Guard
- Designed, developed, and maintained a mobile application for the National Guard Convention React Native.
- App allowed users to sign up/log in using Firebase authentication, scan QR codes throughout the convention and register the QR code data scanned in the Firestore database.
- Collaborated with cross-functional teams (Design & Backend Teams) to ensure seamless integration.

Founding Software Developer
RS Technologies
- Deliver across the entire app life cycle – concept, design, build, deploy, test, release to the App Store, and support.
- Web & Mobile app development agency, clients consisted of the National Guard, Walmart, & LB Steel.
- Generated $73,000 in revenue first fiscal year in business.
